D. M. Sugimura, Director

**CITY OF SEATTLE
ANALYSIS AND DECISION OF THE DIRECTOR
OF THE DEPARTMENT OF PLANNING AND DEVELOPMENT**

Application Number: 3011621
Applicant Name: Chad Detwiller
Address of Proposal: 4852 Delridge Way SW

SUMMARY OF PROPOSED ACTION

Land Use Application to subdivide one development site into four unit lots. The construction of residential units has been approved under Project #6064698 & 6163843. This subdivision of property is only for the purpose of allowing sale or lease of the unit lots. Development standards will be applied to the original parcel and not to each of the new unit lots.

The following approval is required:

Short Subdivision – to create four unit lots. (SMC Chapter 23.24)

SEPA DETERMINATION: ☒ Exempt ☐ DNS ☐ MDNS ☐ EIS
☐ DNS with conditions
☐ DNS involving non-exempt grading, or demolition,
or involving another agency with jurisdiction.

BACKGROUND DATA

Zoning: Lowrise 2
Uses on Site: Four townhouses.

Site Characteristics:

This 4,800 square foot subject site (the “parent lot”) is a rectangular lot that fronts on Delridge Way SW to the west and an alley to the east. The subject site is located within an area zoned Multifamily Residential Lowrise 2 (L-2) which extends to the north and south. The area adjacent to the east and one-half block to the west is zoned Single Family Residential 5000 (SF5000). The site is not located in any mapped critical areas.

Proposal Description:

The applicant proposes to subdivide one 4,800 square foot parcel into four unit lots with the following lot areas: Unit Lot A) 1,130 square feet, Unit Lot B) 1,130 square feet, Unit Lot C) 1,270 square feet; and Unit Lot D) 1,270 square feet. Pedestrian access to Unit Lot A and Unit Lot C will be provided via a 4'0" wide pedestrian easement along the north property line. Unit Lot B and Unit Lot D will be served by a 4'0 pedestrian easement along the south property line.

One surface parking space for each unit lot (for a total of four), will be provided between the easterly townhouse structure and the alley.

Building permits for the construction of two, 2-unit townhouse buildings with four surface parking spaces has been reviewed and approved under Project Number #6064698 and 6163843. The subject of this analysis and decision is limited to the subdivision of land.

Public Comment: No comment letters were received during the comment period which ended October 13, 2010.

ANALYSIS – SHORT SUBDIVISION

Pursuant to SMC 23.24.040, the Director shall, after conferring with appropriate officials, use the following criteria to determine whether to grant, condition, or deny a short plat:

1. *Conformance to the applicable Land Use Code provisions, as modified by this chapter;*
2. *Adequacy of access for pedestrians, vehicles, utilities and fire protection, as provided in Section 23.53.00, Access to lots, and Section 23.53.006, Pedestrian access and circulation;*
3. *Adequacy of drainage, water supply, and sanitary sewage disposal;*
4. *Whether the public use and interests are served by permitting the proposed division of land;*
5. *Conformance to the applicable provisions of SMC Section 25.09.240, Short subdivision and subdivisions, in environmentally critical areas;*
6. *Whether the proposed division of land is designed to maximize the retention of existing trees;*
7. *Conformance to the provisions of Section 23.24.045, Unit lot subdivisions, when the short subdivision is for the purpose of creating separate lots of record for the construction and/or transfer of title of townhouses, cottage housing, clustered housing, or single-family housing; and*
8. *Conformance to the provisions of Section 23.24.046, Multiple single-family dwelling units on a single-family lot, when the short subdivision is for the purpose of creating two (2) or more lots from one (1) lot with more than one (1) existing single-family dwelling unit.*

Summary – Short Subdivision

Based on information provided by the applicant, referral comments from DPD, Water (SPU), Fire Department (SFD), Seattle City Light, and review by the Land Use Planner, the above cited criteria have been met subject to the conditions, if any, imposed at the end of this decision. The lots to be created by this short subdivision will meet all minimum standards or applicable exceptions set forth in the Land Use Code, and are consistent with applicable development standards. As conditioned, this short subdivision can be provided with vehicular and pedestrian access, public and private utilities and access (including emergency vehicles). Adequate provisions for drainage control, water supply and sanitary sewage disposal have been provided for each lot and service is assured, subject to standard conditions governing utility extensions. The proposal site is not located in a mapped environmentally critical area.

Tree and landscaping requirements were considered under the building permit review. The public use and interest are served by the proposal since all applicable criteria are met and the proposal creates the potential for additional housing opportunities in the City.

ANALYSIS – UNIT LOT SUBDIVISION

Conformance to the provisions of Section 23.24.045, Unit lot subdivisions, when the short subdivision is for the purpose of creating separate lots of record for the construction and/or transfer of title of townhouses, cottage housing, clustered housing, or single-family housing.

- A. *The provisions of this section apply exclusively to the unit subdivision of land for townhouses, cottage housing developments, residential cluster developments, and single-family dwelling units in zones where such uses are permitted.*
- B. *Except for any site for which a permit has been issued pursuant to Section 23.44.041 for a detached accessory dwelling unit, sites developed or proposed to be developed with dwelling units listed in subsection A above may be subdivided into individual unit lots. The development as a whole shall meet development standards applicable at the time the permit application is vested. As a result of the subdivision, development on individual unit lots may be nonconforming as to some or all of the development standards based on analysis of the individual unit lot, except that any private, usable open space for each dwelling unit shall be provided on the same lot as the dwelling unit it serves.*
- C. *Subsequent platting actions, additions or modifications to the structure(s) may not create or increase any nonconformity of the parent lot.*
- D. *Access easements and joint use and maintenance agreements shall be executed for use of common garage or parking areas, common open space (such as common courtyard space for cottage housing), and other similar features, as recorded with the Director of the King County Department of Records and Elections.*
- E. *Within the parent lot, required parking for a dwelling unit may be provided on a different unit lot than the lot with the dwelling unit, as long as the right to use that parking is formalized by an easement on the plat, as recorded with the Director of the King County Department of Records and Elections.*
- F. *The fact that the unit lot is not a separate buildable lot, and that additional development of the individual unit lots may be limited as a result of the application of development standards to the parent lot shall be noted on the plat, as recorded with the Director of the King County Department of Records and Elections.*

Summary - Unit Lot Subdivision

Review of this application shows that the proposed unit lot subdivision would conform to applicable standards of SMC 23.24.045 subject to the conditions, if any, imposed at the end of this decision. The proposed developments are townhouses. The structures, as reviewed under their separate building permits, conform to the development standards for the time the permit application was vested. To assure that future owners have constructive notice that additional development may be limited; the applicant will be required to add a note to the face of the plat that reads as follows: Include the following on the face of the plat: *"The unit lots created by unit lot subdivision are not separate building lots. Additional development on any individual unit lot in this unit subdivision may be limited as a result of the application of development standards to the parent lot pursuant to applicable provisions of the Seattle Land Use Code."*

DECISION – UNIT LOT SUBDIVISION

The proposed Unit Lot Subdivision is **CONDITIONALLY GRANTED**.

CONDITIONS – UNIT LOT SUBDIVISION

Conditions of Approval Prior to Recording

The owner(s) and/or responsible party(s) shall:

1. Provide an access easement or covenant that allows for the proper posting of address near the entrance of the property for every unit proposed without street frontage.
